

QA GLOBAL

FOOD SAFETY AND QUALITY

QUALITY SUPPORT FOR SUCCESS

About Us

QA Global

Consumers, retailers, manufacturers, regulators, restaurants, and hospitality look to QA Global for the development of public health standards, quality and food safety consulting programs and SMART solutions that help to protect the food, water, consumer products and environment.

Our established team of quality experts, food professionals, nutritionists, microbiologists, consultants, auditors and trainers have many years practical experience in all sectors of the food industry - retailing, manufacturing, processing, restaurants, hospitality, finished products, raw materials and packaging manufacturing supplier developments and food services.

We have been established for 10 years and in that time have built a reputation for excellence, using our extensive practical experience to quickly identify with our client's requirements to provide a seamless service.

Quality Support for Success
